COMMENTS	Offerings, options and contracts as of the effective date of the appraisal: <b>The subject property is not currently under contract and is not currently listed on the open market.</b> Marketability Comments: <b>Mortgage rates were recently at historic lows, making home ownership an attractive option. Credit markets, however, have tightened thereby limiting access to some mortgage products. Median sales prices have generally declined throughout the southwest Ohio region during the previous five to seven year period. In the subject property's market area, however, median sales prices have increased approximately 6% during the previous twelve month period ending January 8, 2016, with a median sales price of \$125,000 during the past year. Sales of lender-owned dwellings represent approximately 20% of all sales in the market area during the previous twelve months, negatively impacting average and median sales prices in the market area.</b> Site Comments: <b>The subject property is located in an established Miamisburg City residential neighborhood, known as Brody. The immediate subject area consists predominantly of ranch-style dwellings of average quality. The subject is located in the northeastern portion of Miamisburg, minutes from downtown Miamisburg. Most services and amenities are conveniently located. State Route 725 is blocks south, and allows easy access to the Dayton Mall shopping area and the interstate system.</b> Improvement Comments: <b>An exterior-only appraisal of the subject property was performed. The subject is a one-story dwelling, and according to Montgomery County records was built in 1959 with 1161 square feet of gross living area, and includes 3 bedrooms, 1 1/2 baths, a basement, and an attached garage. The exterior of the subject has been adequately maintained, with no deferred maintenance evident. The overall condition of the subject property is considered average for the market area.</b>

Summary of Sales Comparison Approach: All three sales are located within a few blocks of the subject property. Lack of recent similar sales in the subject's immediate neighborhood resulted in the use of Comparable #3, which is older than three months, and in the use of Comparable #1, a similar sized dwelling without a basement. The comparables selected offer similar utility and locational amenities, and are considered good indicators of market value for the subject property. According to the most recent MLS listing information, including interior photos, Comparables #2 and #3 have significant recent upgrades and improvements, and are considered superior in condition to the subject property. Net adjustments for Comparable #2 exceed typical guidelines. The final value is well supported.

#### Scope of Work, Assumptions and Limiting Conditions

Scope of work is defined in the Uniform Standards of Professional Appraisal Practice as "the type and extent of research and analyses in an assignment." In short, scope of work is what the appraiser did and did not do during the course of the assignment. It includes, but is not limited to: the extent to which the property is identified and inspected, the type and extent of data researched, the type and extent of analyses applied to arrive at opinions or conclusions.

The scope of this appraisal and ensuing discussion in this report are specific to the needs of the client and to the intended use of the report. This report was prepared for the sole and exclusive use of the client for the identified intended use and is not to be used by any other parties is prohibited. The appraiser is not responsible for unauthorized use of the report.

The appraiser's certification appearing in this appraisal report is subject to the following conditions and to such other specific conditions as are set forth by the appraiser in the report. All extraordinary assumptions and hypothetical conditions are stated in the report and might have affected the assignment results.

1. The appraiser assumes no responsibility for matters of a legal nature affecting the property appraised or title thereto, nor does the appraiser render any opinion as to the title, which is assumed to be good and marketable. The property is appraised as though under responsible ownership.

2. Any sketch in this report may show approximate dimensions and is included only to assist the reader in visualizing the property. The appraiser has made no survey of the property.

3. The appraiser is not required to give testimony or appear in court because of having made the appraisal with reference to the property in question, unless arrangements have been previously made thereto.

4. Neither all, nor any part of the content of this report, copy or other media thereof (including conclusions as to the property value, the identity of the appraiser, professional designations, or the firm with which the appraiser is connected), shall be used for any purposes by anyone but the client and other intended users as identified in this report, nor shall it be conveyed by anyone to the public through advertising, public relations, news, sales or other media, without the written consent of the appraiser.

5. The appraiser will not disclose the contents of this appraisal report unless required by applicable law or as specified in the Uniform Standards of Professional Appraisal Practice.

6. Information, estimates, and opinions furnished to the appraiser, and contained in the report, were obtained from sources considered reliable and believed to be true and correct. However, no responsibility for accuracy of such items furnished to the appraiser is assumed by the appraiser.

7. The appraiser assumes that there are no hidden or unapparent conditions of the property, subsoil, or structures, which would render it more or less valuable. The appraiser assumes no responsibility for such conditions, or for engineering or testing, which might be required to discover such factors. This appraisal is not a home inspection or environmental assessment of the property and should not be considered as such.

8. The appraiser specializes in the valuation of real property and is not a home inspector, building contractor, structural engineer, or similar expert, unless otherwise noted. The appraiser did not conduct the intensive type of field observations of the kind intended to seek and discover property defects. The viewing of the property and any improvements is for purposes of developing an opinion of the defined value of the property, given the intended use of this assignment. Statements regarding condition are based on surface observations only. The appraiser claims no special expertise regarding issues including, but not limited to: foundation settlement, basement moisture problems, wood destroying (or other) insects, pest infestation, radon gas, lead based paint, mold or environmental issues. Unless otherwise indicated, mechanical systems were not activated or tested.

The client is invited and encouraged to employ qualified experts to inspect and address areas of concern. If negative conditions are discovered, the opinion of value may be affected.

Unless otherwise noted, the appraiser assumes the components that constitute the subject property improvement(s) are fundamentally sound and in working order.

Any viewing of the property by the appraiser was limited to readily observable areas. Unless otherwise noted, attics and crawl space areas were not accessed. The appraiser did not move furniture, floor coverings or other items that may restrict the viewing of the property.

9. Appraisals involving hypothetical conditions related to completion of new construction, repairs or alteration are based on the assumption that such completion, alteration or repairs will be competently performed.

10. Unless the intended use of this appraisal specifically includes issues of property insurance coverage, this appraisal should not be used for such purposes. Reproduction or Replacement cost figures used in the cost approach are for valuation purposes only, given the intended use of the assignment. The Definition of Value used in this assignment is not consistent with the definition of Market Value for property insurance coverage unless otherwise stated by the appraiser.
